Home is where the heart is and for many these days, it's where the office and the entertainment are. If you're looking for enough space to live, work and do so much more in a prime location at the top of Mt. Washington then look no further. Outside the front entry, you will be greeted by the soothing sound of gurgling water from a fountain and you'll feel the serenity and special ambiance of this property. Open the front door to your private sanctuary with exquisite volumes in the living areas. The family room, with built-ins and a fireplace, has a wet bar, bottle display cabinet, and opens via French doors to a romantic patio where you can dine al fresco in style. The kitchen, with a center island, has custom maple cabinetry, a Viking cooktop and a double oven as well as a breakfast area all looking out to pretty lush views. There is also a separate walk-in pantry. ...
